Knowing Recognizing Biology Ghouse Pests

Cicadas have been an inspiration to researchers well beyond the world of entomology. We hear three stories on the remarkable things humankind has learned from these insects.

First Person: The Sounds, Tastes And Biology Of Cicadas

Prather said people are feeling anxious about the cicadas for a couple of reasons. One may be because of a misperception that they might cause a lot of damage. Prather said the cicadas won't cause ...

Feeling anxious about cicadas? You may not be alone. Here's how to prepare

While he has a Ph.D. in entomology and works with insects on a regular basis ... North Dakota," said the professor of biology at the University of North Georgia (UNG). "The closest cicada population ...

Biology professor readies to research 17-year cicadas

Talk about a rude awakening. Brood X cicadas are coming of age in world that is drastically altered from the one their ancestors knew.

Brood X cicadas emerge in a rapidly changing world

Invasive alien species are recognized as one of the main threats to native

biodiversity, especially on islands. The findings have been published in the Conservation Biology journal. The study ...

Islands habitats threatened by invasive pests: the South Georgia experience

Every 17 years periodical cicadas emerge from their burrows, spread their wings and scream for sex. Other than the noise, they're harmless.

Brood X cicadas come every 17 years and that's even not the weirdest thing about them

Professor of Biology and Director of the Museum of Natural History named Foundation Professor for extraordinary record of achievement ...

Elizabeth Leger's exceptional career "shows no sign of slowing"

Literary studies is paralyzed not because it has no compelling rationale, but because it is divided by two incompatible visions of its work: as artistic education and as moral education. For different ...

Are Humanities Professors Moral Experts?

By Naomi Schaefer Riley STRANGER CARE A Memoir of Loving What Isn't Ours By Sarah Sentilles About halfway through "Stranger Care," the gut-wrenching new memoir by Sarah Sentilles, the author tells us ...

A Foster Parent Looks Back

Researchers are studying how the intense passions of autistic people shape the brain, improve well-being and enhance learning.

The benefits of special interests in autism

How do researchers know? In experiments with dead beetles that have been sprayed with female pheromones, live males reliably attempt to mate with the dead insects. But when one ... and the ...

Science Friday

(Shutterstock) NORTH GEORGIA — While he has a Ph.D. in entomology and works with insects on a regular basis ... North Dakota," said the professor of biology at the University of North Georgia.

North Georgia Professor Seeking Help To Research Cicadas

For example, it probably shouldn't surprise you that once they got their hands on real power, the same lunatics who don't believe in Human Biology immediately made a serious mess of our economy, it ...
