Science, policy and practice groups will be needed to tackle these challenges. Research scientists would especially need to develop a new role to support this framework, based on transdisciplinarity and a systemic approach to problem solving and management. In the following section, we present the elements we consider relevant for enabling ...

The science, policy and practice of nature-based solutions ...

As a final note into defining the essence of periodization, the S&C coach should be cognizant of the fact that the science and practice of periodization is largely based on the hypothesis-generating studies, anecdotal evidence, and related research (8,16,21,64,72). In addition, most studies involved only short-term experimental periods (e.g., ...
