Subconscious and the  
States Of Consciousness  
Superconscious Planes of  
Mind, written by W.W.  
Atkinson in 1909, is a  
somewhat supernatural text  
on the different levels at  
which the mind works and  
functions. There are the sub-  
conscious (below normal),  
conscious (normal), and  
super-conscious (above  
normal) levels, which  
Atkinson describes in  
detail.

Written in 2017, "The Subconscious and Superconscious Planes of Mind Psychology Diverse States Of Consciousness From The American Pioneer Of The New Thought Movement" authored by William Walker Atkinson is wonderfully referenced by me as a genre that can be confidently titled, "rabbit hole reading". This label is given by me to books or subject matter that does two things simultaneously.

The superconscious mind sees  
that everything is, in  
reality, made of energy and  
consciousness and,  
therefore, it sees the  
underlying unity behind the  
outer forms. The  
subconscious mind consists
