scenario in which an onlooker has the choice to save 5 people in danger of being hit by a trolley, by diverting the trolley to kill just 1 person. The term is often used more loosely with regard to any choice that seemingly has a trade-off between what is good and what sacrifices are "acceptable," if at all.

Jarvis Thomson in 1985. Let's look at it simply first. Pulling the lever would seem like the correct choice at first, since it only kills one person instead of five, but, if you do, you are directly causing that one man's death, and if you don't, you would have nothing to do with the five people's deaths.
