"Water for Every Farm" by P.A. Yeomans was originally written to explain the application of Keyline irrigation methods to flatter lands. My father's other books included earlier components of Keyline, like the Scale of Permanence and later components like the "City Forest", a proposal for purifying sewerage effluent in the despered soil of an ...

Water for Every Farm: Yeomans Keyline Plan: P.A. Yeomans ...

His Keyline principles or concepts (Keyline Design) have been adopted by farm owners in almost every country in the world. Yeomans' Keyline concepts are now part of the curriculum of many sustainable agriculture courses in colleges and universities across the world. His ideas have also been a key factor in the development of permaculture design. P.A. Yeomans wrote four books; The Keyline Plan, The Challenge of Landscape, Water For Every Farm and The City Forest. P. A. Yeomans - Wikipedia

Yeomans described a system of amplified contour ripping to control rainfall runoff and enable fast flood irrigation of undulating land without the need for terracing it. Keyline designs include irrigation dams equipped with through-the-wall lockpipe systems, gravity feed irrigation, stock water, and yard water. Graded earthen channels may be interlinked to broaden the catchment areas of high dams, conserve the height of water, and transfer rainfall runoff into the most efficient high dam sites.
